Description

Coming from a hybridization of Hosta King tut and Mildred seaver.

Height : about 60/70 cm.

Width : about 140/150 cm.

Dimensions of the leaves : 25/30 cm long x 20/25 cm large.

The leaves are heart shaped and strongly corrugated and full of clear green at the center and darker green on the large sides, measuring 5 to 7 cm.

The main asset of this variety is that the center of the leaves is resistant to burns in spring.

White flowers from the end of June to the middle of July.

Big rhizome delivered in a 1 liter plastic pot.
