Description

Coming from a hybridization of Hosta Granny's rouge and Hosta Designer genes.

Height : about 35/40 cm.

Width : about 50/60 cm.

Dimensions of the leaves : about 20x7 cm.

The leaves of this variety are spear-shaped, shiny yellow and have intense red colored petioles. The shape of the leaf, the corrugated aspect of the sides and the whole coloration of the plant make that variety a wonderful one.

Lavender color flowers in summer.

Big rhizome delivered in a 1 liter plastic pot.
