### Description

Height of the tree: 850 mm. Width: 700 mm. Brown non-enameled pot : 500\*370\*120 mm. Moyogi style. This bonsai is more than 40/50 years old.

It comes from seedlings and its trays require to be formed. This tree has a beautiful bark. Diameter of the trunk: about 100 mm. Nebari: 270 mm. Very good conicity of the trunk, no strong wound or mark on the trunk. Nice roots base. It comes from Master Mori's nursery. It may require to be reformed and ligatured in order to refine it. It is a perfect bonsai to work on during workshops. There are some jins that got patina along years and make that bonsai much more beautiful. Its original and atypic style and its old aspect are specificities that make it unique. Its owner may change the front face to make that tree much more beautiful.

Photographed in January 2022.

Shelf not included.
