Description

Granite tsukubai basin with a pattern on a face. Dimensions : 50*50*50 cm on the outside. Height of the central hole : 10 cm. Diameter of the inside : 26 cm. Weight : 230 kilograms.

This model has a central hole that retains water. It is one of the elements composing the tsukubai. It is named shozubachi. This rock often goes with a bamboo dispenser nozzle discharging water that overflows in a simple closed circuit system.

Our garden items (basins, granite lanterns, rocks and japanese cobblestones) are stored outside. Indeed, the patina and the old aspect obtained (lichen and moss) give an additional authenticity charm, usually really appreciated in the traditional japanese garden art.

Here is a selection of pump models on the Conrad french website :

<https://www.conrad.com/p/esotec-rimini-s-101701-solar-pump-set-175-lh-577562>

<https://www.conrad.com/p/esotec-palermos-s-101769-solar-pump-set-300-lh-469377>

<https://www.conrad.com/search?search=solar%20pump&searchType=regular>

Think to see the backflow height.

This model, with its traditional aspect is a crush.
