Hosta white feather

ref. 11956

15,00€

[\[+\] Show on the website](#)

Description

Coming from a hybridization of Hosta Undulata mediovariegata.

Height : about 30/35 cm. Width : about 50/60 cm. Dimensions of the leaves : about 15x5 cm. Narrow white leaves in spring, green during the rest of the year. The white color lasts 2 months. This variety will bring a beautiful clear touch to your garden in spring. Medium size lavender color flowers that appear in summer. Big rhizome delivered in a 1,5 liter plastic pot.
