### Description

Tree height: 900 mm

Branch width: 700 mm High-quality unglazed pottery: 470 x 360 x 120 mm

Style: Moyogi Excellent trunk conicity with a diameter of 130-140 mm and 250 mm at the base. Perfectly well-branched with well-formed bark. No wire scars or signs of heavy pruning. Presence of jins. This five-needle pine from Japan is from seeds approximately 50-60 years old, sourced from the Shiraichi Nursery, Japan. Wire training could further lower its plateaus to perfect its beauty.

Photographed in January 2025. A very graceful bonsai with gentle curves, perfect for collectors. Sold without its table.
