Description

Dark pink-purple spring foliage with visible veins of the most beautiful effect, during the summer the foliage becomes dark with new bright red shoots and in autumn red-orange color. Large sheet of +- 5/8 cm wide at maturity. 3 liter pot 30 to 40 cm height.

One of the most beautiful varieties of the last 15 years. Unique in its kind for its vigor and robustness, supports full sun.

"In response to the growing demand in Europe for collectible varieties, this year I'm offering high-quality plants at more affordable prices. These young plants, ranging in height from 10 to 20 centimeters, are perfect for enhancing your collection from the very beginning of their development.

Please note: they must remain in their original pots until spring 2026."
