Description

Leaves: pinkish orange in spring, green in summer and dark reddish orange in autumn.

In response to the growing demand in Europe for collectible varieties, I am offering younger, high-quality plants this year. These plants, measuring between 10 and 20 centimeters in height, are perfect for enriching your collection right from the start of their development. Please note that they must remain in their original pots until spring 2026. Fertilizer has already been added to the substrate, providing sufficient nutrients for the entire year of 2025. Keep a close eye on watering and shelter it from the wind; a spot in partial shade will suit it best.

Technical description

<i>Species</i>	Acer palmatum
<i>Variety</i>	Akebono
<i>Leaf colour</i>	Pink leaves
<i>Leaf shape</i>	Palmated
<i>Adult height</i>	Between 2 and 4 meters
<i>Shape</i>	Natural
