Tree height (excluding pot): 830 mm

Branch spread: 590 mm

Pot: Unglazed ceramic, dimensions 500 × 410 × 140 mm.

Note: The pot has chips on the feet — this defect is reflected in the price of the bonsai.

Style: Shokan (formal upright)

Trunk diameter: 150 mm

Nebari (visible root base): 230 mm

A superb specimen featuring jin and shari with a beautifully aged appearance, and well-formed, ramified branch pads.

No major pruning wounds or wire marks — a genuine bonsai, not a tanuki-style grafted composition.

Estimated age: Over 60 years

Photographed in: July 2025
