Description

Japanese Garden Lantern in natural stone, sandy brown color.
Height: 50 cm, made up of 4 easily transportable elements. Weight: 50 kg.
Drilled through its height to accommodate a lamp. Description of the elements with approximate measurements: The cage where the candle or LED spot is placed: height 16 cm, width 17 cm. Hat width: approximately 46*34 cm. Base section: 42*33 cm. Our garden elements (ponds, granite lanterns, stones, and stepping stones) are generally stored outdoors. The patina and aged appearance that develop (lichens and moss) add an extra layer of authenticity, which is highly valued in traditional Japanese garden art.
