Description

For healthy green leaves on indoor and outdoor bonsai use this spray fertiliser to give your trees a new lease of life. Quick and easy to use, apply it to deciduous trees, conifer vegetation and kusamono small plants.

Spray bottle 500ml. Use undiluted. Ready to use.

How to use:

- 1. Spray on foliage** 1 to 2 times per month. Rapidly absorbed. If the plant is particularly weak you can spray it once or twice every 10 days.
- 2. Spray on the earth** once a month.
- 3. Soak seeds** for one or two hours in the solution before sowing. This will ward off fungal attacks and aid root development.

Our range of Biogold granules complement this product.
