Description

Bag +- 2 litres. Weight +- 1.5 kilos. Japanese volcanic kiryu zuna sand is used to make a drainage bed at the bottom of deep bonsai pots. It's meant for conifer, juniper and pine trees, although it can be used for other species too.

How to use: For juniper and pines Bonsai Doctor Maillot recommends mixing Akadama earth with 25 percent, or a quarter, of Kiryu Zuna sand.
