Description

Height 150 cm, top section 45*45 cm, weight 300 kilograms, delivered in 6 elements. This solid granite lantern is a rare model in Europe since it's a copy of a toro from a garden in Kyoto. The reflecting lotus at the base is joined by a sinuous pole that leads up to a supporting lotus and compartment with framed square windows. A bulb can be added to illuminate it, lighting pathways and entrances.

Japanese name "yoshino gata" .
